AMENDMENT OF SPECIFICATION AND REQUEST FOR ENTRY OF A
INITIAL PAPER FORM COPY OF THE SEQUENCE LISTING
CONTAINING NUCLEOTIDE SEQUENCE AND/OR
AMINO ACID SEQUENCE DISCLOSURES

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

In Reply to the Notice To File Missing Parts mailed July 17, 2001
and the subsequent Notice Of Incomplete Reply (NonProvisional)
mailed January 10, 2002, requesting compliance with requirements

for patent applications containing nucleotide sequence and/or amino acid sequence disclosures, applicant hereby amends the Specification of the above-identified application pursuant to 37 C.F.R. 121. Such amendment is being made by submission of replacement paragraphs for the Specification, in clean copy form, for the changes listed below. A marked-up copy of these replacement amended paragraphs is also provided as a separate document.

In the Specification:

Replacement amended paragraphs in clean copy format are enclosed for the text at:

Page 27, lines 6-43; and

Page 28, lines 6-43.

In addition, pursuant to and in compliance with the requirements of 37 C.F.R. 1.821-1.825, applicant also encloses herewith an initial paper form copy of the "Sequence Listing" containing disclosures of nucleotide sequences and/or amino acid sequences. Applicant respectfully requests and directs that the enclosed initial paper form copy of the "Sequence Listing" containing disclosures of nucleotide sequences and/or amino acid sequences be formally entered into and be made officially of record for the Specification of the above-identified application.
